THE SUSQUEHANNAH.

HOUSE OF REPRESENTATIVES, *May 25th*, 1824.

SIR: The undersigned, members of Congress from Pennsylvania, Maryland, and Delaware, believing in the practicability of the improvement of the navigation of the river Susquehanna, either by removing the obstructions in the bed of the river, or by canaling, respectfully request the President of the United States to order a general survey of that river and its branches, and that an estimate be made of the probable expense of clearing the river of its obstructions, and of a canal from Conewago Falls to tide water, if practicable. A survey and estimate by the very able and experienced Engineers of the General Government, will enable Congress and the State Legislatures with confidence to appropriate to the execution of an object of the greatest importance to the public, and highly worthy of national attention. We also respectfully ask a survey of all those waters, which, by canaling, may complete the connection of the waters of the Susquehanna with the waters of the Alleghany, and Lake Erie, and an estimate of the probable expense of canaling the same. We are, very respectfully,

Thomas Patterson, Isaac Wayne, John Findlay, Samuel Breck. S. Edwards, Henry Wilson, W. Cox Ellis, Peter Little, W. Lowrie, Isaac McKim, Geo. E. Mitchell, Thomas Hemphill, J. Lee, John Tod, S. D. Ingham, James Wilson, John Brown, W. Findlay, Daniel Udree, Joseph Kent, Wm. Forward, J. S. Mitchell, A. Stewart, Geo. Kreemer, Robert Harris, Geo. Plumer, Louis M'Lane, of Del.

To the President of the United States.

WAR DEPARTMENT, *June* 8, 1824.

SIR: Your letter of the 17th of May last, addressed to the President, has been referred to this Department.

Under the general arguments adopted for carrying into execution the act of the 30th of April last, which authorizes the President to procure the necessary surveys, plans, and estimates, for roads and canals, a board of engineers for internal improvement has been constituted, and which is now engaged in exploring the route between the navigable waters of the Potomac and the Ohio, and between the latter and Lake Erie, on which the board will probably be employed about eight weeks, when it is expected, that the Commissioners of Pennsylvania will meet the board at Pittsburgh, and co-operate in exploring the route from that place to the Susquehannah, with a view to ascertaining the practicability of canal communication between those places; which, in conjunction with the survey made last year by Capt. Bache, of the Topographical Engineers, down the Susquehanna to Baltimore, will complete the whole route contemplated by your letter to the President. I have the honour to be, very respectfully, Sir, your most obedient servant, J. C. CALHOUN.

To the Hon PETER LITTLE, *Baltimore*.

The Commissioners under the 11th Article of the Treaty, between the United States and Spain, hereby certify, that the Schedule marked D. exhibits a true account of the manner in which the different sums allowed by them on account of the loss of vessels, or violation of contracts, have been distributed among the Memorialists; together with the amount of the whole sum allowed, under each Memorial, and the sum actually awarded and to be paid after an abatement at the rate of eight and one-third per centum has been made. BOUNDARIES OF ARKANSAS.

IN SENATE OF THE UNITED STATES, MARCH 23, 1824.

Mr. BENTON, from the Select Committee, to whom was referred the memorial from the General Assembly of the territory of Arkansas, REPORTED:

That the memorialist represent, that the line prescribed by an act of the last session of Congress, for the western boundary of the territory of Arkansas, will pass through the counties of Miller and Crawford, and leave a proportion of the population of the said counties, on the outside of said line and beyond the jurisdiction of said territory; and they pray that the line may be altered, and fixed, so far west as will include the residue of said counties and their inhabitants.

By information derived from the Delegate of said territory, the committee are informed that the number of inhabitants, thus cut off from the government under which they had lived, amounts to about twelve hundred souls; and the inquiries which present themselves, are: 1st. Whether the said inhabitants shall be left as they are, without law to govern them? 2d. or, Whether they shall be compelled to come within the present limits of the territory? 3d. or, Whether the western boundary shall be extended to include them?

This first alternative the committee reject, for reasons too obvious to require specification. To the second, many objections are found, arising from the organized state of the counties; the *claims* which many of the inhabitants set up for pre-emption rights, under the act of Congress of the 12th of April, 1814; and, above all, from the fact, that, by an order issued from the War Department, the 15th December, 1818, a line, drawn from the source of the Koamichi, to the source of the Poteau, was fixed as the limit of western settlements in Arkansas, and settlers west of that line were ordered to be removed to the east of it; in the execution of which order, by the commanding officer of Fort Smith, on the Arkansas river, the settlers in the now counties of Miller and Crawford were not removed, because found to be on the eastern side of the said line. The third alternative is, therefore, adopted by the committee, as well for the reasons growing out of the objections to the first and second, as because a line further west will divide, into two equal parts, the territory of the United States upon the Arkansas, east of the Mexican boundary, and will give to the future state of Arkansas that power and magnitude, to which, as a frontier state, in relation both to a foreign nation and numerous Indian tribes, it will be justly entitled.

The adjustment of the Indian boundary lines not being a subject of legislation, the committee do not make any report upon the existing boundary between the Choctaws and white settlers in the territory of Arkansas. They leave that subject to the operation of treaties, made or to be made; and report a bill solely for the extension of the western boundary line of the territory of Arkansas.
